Dear Hiring Manager,

I am excited to express my interest in the Junior (Graduate) Back-End Developer position at Lynxx (Or should I say **NetworkSim**?). With a Bachelor of Software Engineering (Honors) and experience manipulating AWS and various programming languages including Java, Python, Scala, Javascript, Shell, I believe I am an excellent fit for the position.

During my academic journey, I have gained a deep understanding of software development principles and methodologies. I am well-versed in both front-end and back-end development, having developed web applications using technologies such as Django, Flask, and React. Additionally, my experience with AWS has provided me with a solid understanding of cloud computing, virtualization, and containerization.

As a recent graduate, I am highly motivated to work in a dynamic and fast-paced environment to learn new skills and improve my abilities. I am proficient in Python, with experience in building web frameworks and APIs using Django, Flask, and others. I am passionate about solving complex problems and delivering innovative solutions for users.

I am excited about the opportunity to work for Lynxx and contribute to its mission of delivering high-quality and innovative technology solutions to customers. I am confident that my skills and experience make me a strong candidate for the Junior (Graduate) Back-End Developer position. I am eager to learn and grow as a professional while contributing to the company's success.

Thank you for considering my application. I would be happy to discuss my qualifications and enthusiasm for the position further.

Sincerely,
An Yan
